

ARDEX RA 144

STRUCTURAL CRACK INJECTION EPOXY

ARDEX RA 144 is a low viscosity, high modulus structural epoxy adhesive used for a variety of repair projects. With its low viscosity, it is perfect for horizontal gravity-feed repair of fine to medium size cracks and can be used in temperatures between 10°C and 35°C. Its bonding and sealing capabilities for interior and exterior slabs are exceptional.

- Low viscosity for superior crack penetration
- Ideal for 3mm - 6mm cracks
- Solvent free
- Low VOC content
- Pressure injection & gravity feed structural crack repair
- Ready to apply - no mixing needed
- Ideal for use with Rhino Concrete Crack Lock

Location

- Internal or external
- Horizontal
- Vertical with injection port system
- Structural applications

Typical uses

- Repair of structural fine - medium width cracks
- Spall repair when mixed with aggregate to create an epoxy mortar

Cure time

- Gel time: 20 mins
- Full cure: 24 hours

Packaging

470mL

Code

22791
