

# ARDEX SE

## FLEXIBLE SILICONE SEALANT

ARDEX SE is an acetic cure silicone sealant which is ideal for use in tiling applications due to the superior bond achieved when being used with glazed surfaces such as ceramic tile. Due to its high elasticity, ARDEX SE is able to accommodate movement up to 25% of the original joint width. It is exceptionally easy to apply and smooth, curing to form a permanently elastic, waterproof and dustproof joint seal.

- Flexible sealant for use in tile movement and connecting joints
- Colour matched to popular ARDEX grouts
- Elastic – withstands 25% total movement of original joint width
- Easy to apply and smooth off
- UV resistant – use indoors or outdoors
- Waterproof – suitable for wet areas such as showers
- Contains fungicides to combat mould growth
- Low VOC content

### Uses

- Movement joints (between tiles)
- Corners (tiled wall and floor)
- Connecting joints between tiled surfaces and bench tops
- Bath edges
- Cupboards and splashbacks

### Location

- Internal or external

### Suitability

- Glazed and unglazed ceramic tiles
- Glass
- Enamel
- Anodized aluminium
- Granite
- Porcelain
- Laminate
- Sanitary acrylics

### Packaging

310ml cartridge
