

ARDEX RA 146

BLINDSIDE CRACK INJECTION EPOXY

ARDEX RA 146 is a thixotropic structural epoxy adhesive system with a gel-like consistency for repair of medium size cracks when using an injection port system. ARDEX RA 146 is multi-viscous and flows like a liquid while under pressure and will cease flowing when no pressure is being applied. It is a high strength epoxy system perfect for blind-side crack repair of most substrates. It will bond the structure back to its original monolithic strength.

- Thixotropic, multi-viscous epoxy
- Ideal for blindsided cracks where one side of the crack is inaccessible
- Ideal for 6mm - 10mm cracks
- Solvent free
- Low VOC content
- Pressure injection structural crack repair
- Ready to apply - no mixing needed
- Ideal for use with Rhino Concrete Crack Lock

Typical uses

- Repair of structural medium width cracks
- Blindsided crack repair, e.g. basements, foundation walls, parking garages

Cure time

- Gel time: 20 mins
- Full cure: 24 hours

Location

- Internal or external
- Horizontal
- Vertical with injection port system
- Structural applications

Packaging

470mL

Code

22792
