

ARDEX OPTIMA

TWO-PART PREMIUM TILE ADHESIVE

ARDEX Optima is a premium-grade two-part adhesive with exceptional bond strength. Its unique formula enables ARDEX Optima to be used over a number of difficult to adhere to surfaces. It has a high initial grab which reduces the need for support in wall tiling applications, and is classified as a highly flexible adhesive, S2 in accordance with AS 4992.

- Exceptional bonding
- Highly flexible
- Suitable for use with translucent tiles
- High initial grab
- Highly water resistant - will not deteriorate in constant water immersion
- Suitable for wall and floor tiling
- Internal and external use
- Suitable for use over difficult to adhere surfaces

Substrates

- Brick and blockwork
- Tilt up and precast concrete
- Cement render/screeds, concrete, aerated concrete
